Dr. Joshua Lederberg  
President  
Rockefeller University  
New York, N. Y. 10021

Dear Dr. Lederberg,

It was such a pleasure to run into you the other night, and get caught up with the progress you're making on your shoulder and settling in to your new quarters. It was also very enjoyable to meet your wife who, as I recall, is going to work in the Westchester Division of New York Hospital with my friend, Michael Stone?

At any rate, I may have already called you by the time you receive this note unless I see you again Wednesday, February 21, at Rockefeller -- to invite you to be a plenary speaker at the mid-winter meeting of the American Academy of Psychoanalysis (founded by Clara Thompson and others) at the Waldorf-Astoria, either Monday morning November 30 or December 1 -- we will know definitely within a few weeks. The theme is Affect, and we would like to hear you speak on the genetic aspects of affect and affective disorders. If your schedule will not allow it, can you recommend someone?

Warm regards,

  
Maurice R. Green, M.D.
